Chiral cyanomethylene ruthenium dication: a computed structural and photophysics study. Modeling the chiral cyanomethylene dication, a chromophore that binds rhodium and iridium and whose metal-to-ligand charge-transfer bands can be fitted to third-order perturbation theory, provides insights that can guide the design of new metalated dyes and complexes. Surprisingly, the lowest singlet (S) and triplet (T) metal-to-ligand charge-transfer states of the cyanomethylene ruthenium dication,  $\text{Ru}^{3+}[\text{CH}(\text{CN})_2]^{2-}$ , are flat relative to its parent monocation,  $\text{Ru}^{2+}[\text{CH}(\text{CN})_2]^{2-}$ , with a conical-like (S) state that lies 50 kcal mol<sup>-1</sup> lower than the (T) state.  $\text{Ru}^{3+}[\text{CH}(\text{CN})_2]^{2-}$  shows a strong, large-amplitude, intraligand twist between the cyanomethylene moieties and the adjacent metal center. Q: Laravel update problem I have a problem with updating my data. I have a table "Rant". I made an input field for user to add new rants. After he submits the data I want to save it in database. Controller method looks like this: public function update(Request \$request){ \$inputs = \$request->all(); \$r = new Rant; \$r->type = \$inputs["type"]; \$r->author\_id = Auth::user()->id; \$r->content = \$inputs["content"]; \$r->save(); and I have this view: id } }" method="post" class="form-horizontal">

Like nobody can relate to or understand what you are going through. Do you ever wonder why you're here and all alone. There are many people out there and yet somehow you're here all alone and lost, searching for answers. The reason you are alone and feel this way is because there are some people in this world that don't want to relate to you, this is because they don't want to be reminded of their own pain, the sorrow or whatever they have going on. They avoid you because you are sensitive to the lost souls out there that need to feel connected. This doesn't mean you have to be around people that are hurting, or that feel like they want to cry all the time. If you do have people like this around, then how can they possibly relate? They are oblivious to what you're going through, and they don't know that there's a reason why you are in this situation. As I said, you are sensitive so you can put yourself out there and be part of the solution, instead of the problem. This is a free service. If you are feeling a little lost and feel like nobody understands you, then there are others that might feel the same as you, however, they don't know what to do and it can feel lonely. You are only a phone call away from getting that support or that friend that will get you through that tough time. By showing yourself in this way, you are showing others that you are not alone in this world and that you are ready to help. If you can help one person in the world at the time you are feeling alone, that would be an amazing feeling. If you feel alone, then pick up the phone and call someone. We don't have to be strangers in this world, we can all get along and help each other. And, if you can help someone
